Summary

Software Developer and Technical Instructor with practical experience in web technologies and computer science fundamentals.Skilled at explaining technical concepts, leading practical sessions and building modern web applications.

EDUCATION

Bachelor's Degree in Computer Science and Information Technology, Culture and Science City 2021 – 2025 | October 6 City
- Graduation Project Grade: Excellent
- Overall Grade: Very Good

Experience

Part-Time Programming Instructor, iSchool | Digital Egypt Cubs Initiative (DECI) 06/2026 – 09/2026
- Facilitate interactive practical sessions for multiple student groups, introducing foundational technology and logical thinking concepts.
- Monitor individual student progress, providing tailored support and constructive guidance during practical tasks.
- Maintain high classroom engagement and foster a collaborative environment across different groups.Guide students through hands-on projects and interactive activities to strengthen their problem-solving skills.
- Simplify technical and digital concepts into engaging, accessible content tailored to diverse learning paces.

Courses & Training

Frontend Developer Trainee, Route – IT Training Center 02/2025 – 09/2025
- Developed dynamic user interfaces using React.js, Next.js, and TypeScript
- Integrated RESTful APIs and handled complex data fetching using Axios.
- Applied optimization techniques to improve application performance and lighthouse scores
- Built responsive, modern UI designs using TailwindCss and Bootstrap.

Frontend Developer, Graduation Project 10/2024 – 07/2025
- Designed and implemented a fully responsive frontend architecture using React.js
- Validated API endpoints using Postman to ensure seamless communication with the backend.
- Translated complex Figma prototypes into functional ,pixel-perfect UIs.

Frontend Development Trainee, Digital Egypt Pioneers Initiative 06/2023 – 02/2024
- Strengthened core web fundamentals (HTML5, CSS3, JS ES6+) through intensive practical projects.
- Applied UI/UX principles to enhance web usability and accessibility.

Projects

LinkedPosts, Social Media App 05/2026 – 05/2026
- Developed a Social Media Platform that enables users to manage posts and comments via full CRUD functionality.
- Built a responsive UI using React.js improving user interaction and performance
- Implemented user authentication (Login/Signup) and integrated RESTful APIs for data management.

E-Commerce Platform, Next.js & TypeScript 08/2025 – 09/2025
- Developed a full-featured application using Next.js Middleware for robust route protection and session management.
- Implemented secure JWT Authentication and integrated online payment workflows.
- Integrated backend APIs for product management and validated endpoints via Postman.

TECHNICAL SKILLS

Languages
React.js, Next.js, TypeScript, JavaScript (ES6+)

Tools
GitHub, Postman, Vercel, Vite, npm

Styling
Tailwind CSS, Bootstrap, CSS3

Concepts
JWT Authentication, API Integration, Performance Optimization

State Management & Data Fetching
React Context, Axios, Fetch API

Professional Practices
Worked in Agile environment and participated in code reviews

SKILLS

- Presentation skills
- Reporting & Documentation
- Team Collaboration
- Problem Solving
- Communication Skills
- Time Management

LANGUAGES

English
Intermediate

Arabic
